

I do not want my phone number made public to these entities. I will not provide any information over the phone to any sollicitaions. If you want my business you must send me mail....that is the only thing that prompts me to act!!!! Due to fraud...I will not conduct a phone conversation with anyone I cannot see before me!!!!

I have registered my elderly parents (both sides) and my children. This bill was a God send. I was so very tired and majorly annoyed of being bombared at supper time through out the evening every single day. They even will sometimes get you up before 8:00 am in the morning.

Please don't back down.
